# COMPOSITION OF MANAGEMENT BODIES

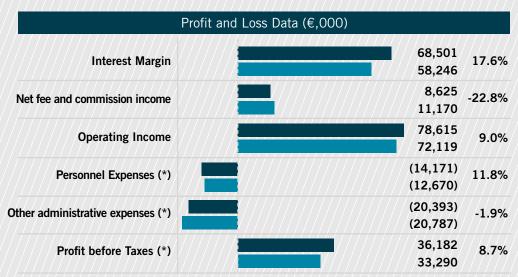

#### **Board of Directors**

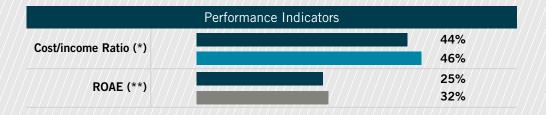

Chairman	Ms	Luitgard Spögler
Deputy Chairperson	Prof.	Giovanni Puglisi
CEO and General Manager	Mr	Gianluca Garbi
Directors	Mr	Claudio Pugelli
	Prof.	Giorgio Barba Navaretti (Independent
	Ms	Ilaria Bennati (Independent)
	Mr	Daniele Pittatore (Independent)
	Ms	Carlotta De Franceschi (Independent)
	Mr	Andrea Zappia (Independent)
Board of Statutory Auditors		
Chairman	Mr	Diego De Francesco
Standing Auditors	Mr	Biagio Verde
	Mr	Massimo Conigliaro
Alternate Auditors	Mr	Gaetano Salvioli
	Mr	Marco Armarolli
Internal Control and Risk Management Committee		
Chairman	Mr	Daniele Pittatore
Members	Ms	Carlotta De Franceschi
	Prof.	Giorgio Barba Navaretti
	Ms	Luitgard Spögler
Nominations Committee		
Chairman	Mr	Andrea Zappia
Members	Ms	Ilaria Bennati
	Ms	Luitgard Spögler
Remuneration Committee		
Chairman	Prof.	Giorgio Barba Navaretti
Members	Mr	Andrea Zappia
	Prof.	Giovanni Puglisi
Ethics Committee		
Chairman	Prof.	Giovanni Puglisi
Members	Ms	Ilaria Bennati
	Attorney-at-Law	Marco Pompeo
Surveillance Body		
Chairman	Mr	Diego De Francesco
Members	Mr	Daniele Pittatore
	Mr	Franco Pozzi

The Board of Directors was appointed by resolution of the Shareholders' Meeting dated 27 November 2015, with the appointment of Ms Luitgard Spögler to the position of Chairman of the Board of Directors. Subsequently, the Board of Directors, meeting on the same date, appointed Mr Gianluca Garbi to the position of CEO and set up the Executive Committee, the Internal Control and Risk Management Committee, the Nominations Committee, the Remuneration Committee, the Ethics Committee and the Surveillance Body. Following the resignation of Mr Michele Calzolari, tendered on 31 May 2016, on 10 June 2016 the Board of Directors co-opted Ms Ilaria Bennati as Director. In addition, the abolition of the Executive Committee became effective on 4 July 2016, with the resulting reorganisation of the Board committees, and Mr Giovanni Puglisi was appointed Deputy Chairperson. The Board of Statutory Auditors was appointed by resolution of the Shareholders' Meeting dated 22 April 2014.

#### HIGHLIGHTS DATA AS AT 31 DECEMBER 2016

<sup>(\*)</sup> Amounts and indicators were calculated using profit and loss data adjusted for non-recurrent costs.

<sup>(\*\*)</sup> The Return on Average Equity (ROAE) was calculated as the ratio of the profit for the year to average shareholders' equity.

#### SIGNIFICANT EVENTS DURING THE REPORTING PERIOD

The Board of Directors approved the following on 5 February 2016: (I) the Activity Plan for 2016 related to the II Level Internal Control Functions, (Risk, Compliance and Anti-Money laundering) and Internal Audit Department, and (II) the Board of Directors' Regulations. The Board of Directors also acknowledged the quarterly report from the Internal Control Department as at 31 December 2015 (Risk Reporting, Tableau de bord of the Compliance Department and Tableau de bord of the Internal Audit Department), as well as the quarterly report on Transactions with Associated Parties within the scope of the Master Resolution. In addition, the Board of Directors, upon confirmation of the decision made on 16 December 2015 regarding the purchase of a building for the Bank's new headquarters, approved the establishment of a new, wholly owned vehicle (a limited liability company) with a view to further developing the business. This company will deal with property asset management, in addition to other activities (e.g. the management and sale of advertising space, cultural and educational events, etc.), possibly even on behalf of third parties.

On 15 March 2016 the Board of Directors approved: (I) the 'Annual report on the procedures for providing services, investment activities, ancillary services and activities related to the distribution of financial products issued by insurance companies and banks as per CONSOB decision no. 17297', (II) the '2015 Risks Division Annual Report', (III) the '2015 Compliance Department Annual Report', (IV) the '2015 Anti-Money Laundering Department Annual Report', (V) the 'Compliance Department Annual Report on complaints received by the Bank', (VI) the 'Annual Report on the activities carried out by the Internal Audit Department during 2015', and (VII) the Periodic Report to the Board of Directors and Board of Statutory Auditors from the Surveillance Body concerning the application of the 'Organisation, management and control model pursuant to Legislative Decree 231/2001". The Board of Directors also approved the Report on corporate governance and

ownership structure which was prepared in accordance with section 123-bis of Legislative Decree no. 58/1998, as well as the updated IT System documentation (IT Security Policy, IT Risk Summary Report, Information Technology and Communication Adequacy and Cost Summary Report).

Following the resolutions dated 16 December 2015 approving the Remuneration Policies of the Banca Sistema Group for 2016 and the launch of the 2016-2019 Stock Grant Plan with approval of the relevant Regulation, as well as the ensuing resolutions for the creation of a legal reserve of profits linked to the free share capital increase reserved to beneficiaries of the 2016-2019 Stock Grant Plan and the free share capital increase pursuant to article 2349 of the Italian Civil Code servicing the Stock Grant Plan, following approval of the proposed amendment of article 5 of the Articles of Association, on 24 March 2016 the Board of Directors approved some changes to the previously approved versions that it deemed necessary based on indications received from the Supervisory Authorities.

On 25 March 2016, the Bank of Italy issued the authorisation provision - pursuant to Articles 77 and 78 of Regulation (EU) no. 575/2013, as well as Article 29 of Commission Delegated Regulation no. 241/2014 - for the repurchase of the Common Equity Tier 1 capital instruments issued by the Bank as resolved by the Shareholders' Meeting on 27 November 2015 for a predetermined amount not exceeding € 1,477,649.49 (amount to be deducted entirely from own funds as of the authorisation date) for the following purposes: (I) to support regular trading performance so as to avoid price movements that are not in line with the market movements and to guarantee market making (Article 29 (3) of Commission Delegated Regulation no. 241/2014); (II) to pay a portion of the variable remuneration in shares to key personnel as set out in the remuneration and incentive policies approved by the Shareholders' Meeting (Article 29 (4) of Commission Delegated Regulation no. 241/2014); (III) provide the directors with a flexible, strategic and operational tool that will allow them to use own shares as consideration for any extraordinary transactions, such as acquisitions or investment exchanges, with other parties regarding transactions of interest to the Bank. The maximum amount available for this purpose is €140,000 (Article 29 (5) of Commission Delegated Regulation no. 241/2014);

On 28 April 2016, the ordinary and extraordinary Shareholders' Meeting decided on the following:

- the approval of the financial statements of Banca Sistema S.p.A. as at and for the year ended 31 December 2015;
- the allocation of the profit for 2015, with the payment of a dividend of €0.053 per share;
- the approval of the 2016 Remuneration Policies of the Banca Sistema S.p.A. Group, with a maximum limit of the ratio of the variable component to the fixed component of remuneration of 2:1 for positions falling into the category of "key personnel";
- to acknowledge the Remuneration Report, drafted in accordance with Part One, Title IV, Chapter 2, of Bank of Italy Circular no. 285 of 17 December 2013, approved by the Board of Directors on 24 March 2016, with a favourable opinion on Section I;
- to approve the 2016 Stock Grant Plan, concerning the free assignment to beneficiaries of ordinary shares of the Company at the end of the first cycle of the 2016 Plan, contingent on the achievement of certain company and individual performance targets;
- the establishment of a specific restricted equity reserve in service of the 2016 Stock Grant Plan and the 2017-2019 plans that may in future be approved by the Shareholders' Meeting in respect of the years of accrual 2017, 2018 and 2019, designated the "Restricted reserve for capital increase in service of stock-grant plans for bonuses in 2016, 2017, 2018 and 2019", in the amount of € 1,600,000.00, to be drawn from a pre-existing free equity reserve consisting of "undistributed profits" identified in the "Undistributed profit reserve";
- to approve (according to the authorisation received from the Bank of Italy on 26 April 2016 by provision no. 552423) a free share capital increase, pursuant

to Article 2349 of the Italian Civil Code and Article 5.4 of the Articles of Association, in divisible form, in service of the 2016 Stock Grant Plan, and in service of the stock grant plans that may in future be approved by the Shareholders' Meeting in respect of the years of accrual 2017, 2018 and 2019. The maximum amount of this free share capital increase is a nominal € 49,920, corresponding to a maximum number of 416,000 ordinary Company shares with a par value of € 0.12 each, and it must be executed by 30 June 2023. The free share capital increase will involve the use of the restricted reserve for share capital increases in service of the 2016 Plan and the 2017-2019 plans (established in the amount of € 1,600,000).

Within the framework of the securitisation transaction approved by the Board of Directors on 5 February 2016, on 4 March 2016 an agreement was signed to sell the first portfolio of receivables relating to salary- and pension-backed loans to the special purpose vehicle Quinto Sistema Sec. 2016 S.r.l. for a book value of € 119.6 million, with the subsequent issue of ABS on 29 March 2016. The SPV Quinto Sistema Sec. 2016 S.r.I. was included in the list of SPVs under no. 35253.4 on 9 March 2016. On 24 March, the bond documents for the issue of the ABS were signed, while the OTC repo contract (structured as a sale and repurchase agreement) was signed on 29 March. Finally, on 30 March the settlement transactions for both the issue of the ABS (subscribed by Banca Sistema) and the Repo contract regarding the senior tranche were concluded.

The amount of the issue was € 120.9 million.

On 23 May a new portfolio of salary-backed loans was sold to the SPV Quinto Sistema Sec. 2016 for a book value of  $\in$  24.1 million partly financed through collection of principal from the securitised portfolio ( $\in$  1.8 million), with the remainder funded through further payments "called up" on the ABS according to their "partly paid" structure. Following the second sale, the total securitised portfolio reached an outstanding value of approximately  $\in$  138 million.

On 23 May, the OTC repo contract was renewed for a term of two months in the case of the senior tranche for

an amount (following the sale of the new portfolio) of  $\in$  111.9 million (rolling over the initial repo, which had a nominal value of  $\in$  93.5) refinanced, as in the case of the previous transaction, without a haircut at an annual interest rate of 0.503% (including commissions).

On 29 April 2016, the Board of Directors, as part of a larger process of revising the Bank's organisational structure, approved (I) the abolition of the Executive Committee, (II) the resulting revision of operating powers and (III) the reorganisation of the compositions of the Board committees, in addition to the appointment of the new Deputy Chairperson of the Board of Directors (Mr Giovanni Antonino Puglisi) and the new Compliance Officer (Ms Daniele Mosconi). Furthermore, the Board of Directors also approved the reorganisation of the company structures through (I) the establishment of the new Collection Division, which will be responsible for management and recovery of the receivables of the Bank and third parties, and (II) the merger of the Central Factoring Division and the Central Banking Division to form the new Central Commercial Division. All of the above changes became effective on 4 July, following the expiry of the period of five business days from 24 June 2016, the date of issue by the Bank of Italy of the provision authorising the purchase by Banca Sistema S.p.A. of a 100% equity interest in Beta Stepstone S.p.A..

In addition, the Board of Directors approved the update to the Liquidity Policy and Contingency Funding Plan, the 2015 ICAAP Report, the "Annual report from the Internal Audit Department concerning audits conducted on the outsourced operating functions" and the Regulations for the Coordination of the Internal Control Department. Furthermore, the Board acknowledged the quarterly report by the Internal Control Department as at 31.3.2016 (Risk Reporting, Tableau de Bord of the Compliance Department and Tableau de Bord of the Internal Audit Department), the quarterly report on Transactions with Associated Parties within the scope of the Master Resolution and the Pillar III Disclosure.

Banca Sistema's first senior bond issue, approved during the session of the Board of Directors held on 29 April, was concluded on 3 May 2016. The placement in a club deal reserved for institutional investors, in the total amount of € 70 million has a term of two years, with a fixed rate and an all-inclusive cost of 200 bps. The issue is part of a plan to diversify the forms of funding, in accordance with the Funding Plan, and allows for improved asset liability management.

Following the resolutions passed by the Board of Directors on 16 December 2015 and 5 February 2016, on 21 April 2016 a preliminary purchase agreement was signed for the purchase of a building which will also serve as the Bank's new headquarters.

On 10 June 2016, the Board of Directors approved Banca Sistema's participation in the second plan of targeted long-term refinancing operations ("TLTRO-II") for a maximum available amount of  $\in$  123 million. Based on the bids received, Banca Sistema subscribed the operation for the maximum amount available ( $\in$  122,850,000.00). The operation was allotted on 24 June 2016 with spot settlement on 29 June 2016.

The Board of Directors also approved the Regulations of the Internal Audit Department.

In the context of a new securitisation transaction approved by the Board of Directors on 10 June 2016, the following sales contracts were signed on 30 June: the Sales Contract (including the Guarantees), Servicing Contract and Corporate Servicing Contract (for the management of the SPV). The portfolio of loans sold includes 145 enforceable injunctions amounting to total principal of  $\in$  23.9 million, with  $\in$  7.7 million of accrued late payment interest (of which  $\in$  1.5 million relating to repaid capital invoices and  $\in$  6.2 million of invoices that have yet to be repaid).

On 21 June 2016 Banca Sistema and the majority shareholders signed an agreement with Axactor AB, a company listed on the Oslo Stock Exchange, for the acquisition of a 90% equity interest in CS Union S.p.A., an Italian company active in the field of debt recovery and the purchase of non-performing loans (NPLs). The transaction was finalised on 28 June, with the sale to Axactor of the 15.8% equity interest in CS Union held by Banca Sistema, which will therefore continue to hold a 10% interest in the company, for a pre-tax capital gain of € 2.3 million in the first half of 2016.

The consideration (€ 3.8 million) was settled 60% in cash and the remainder in shares of Axactor. A three-year shareholders' agreement was also signed by Banca Sistema and Axactor for the joint development of the NPL business in Italy.

After having signed an agreement with Stepstone Financial Holdings on 4 February 2016 for the acquisition of a 100% interest in Beta Stepstone S.p.A. and having received notice of authorisation from the Bank of Italy on 24 June 2016, on 1 July 2016 the acquisition was finalised for consideration of  $\in$  57.2 million. The acquisition price includes a share of late payment interest not yet collected by Beta of approximately  $\in$  16.3 million; an identical amount was paid as a security deposit and will be released to the seller only after the collection of the aforementioned late payment interest.

The consideration was also adjusted based on shareholders' equity at the closing of the transaction (30 June 2016), which will result in an adjustment in favour of Banca Sistema of € 633 thousand. The purchase is in line with the strategic plan of Banca Sistema as notified in July 2015 during the IPO.

The purchase strengthens the Bank's presence in the factoring market for healthcare operators in Central and Southern Italy.

The following measures became effective on 4 July 2016, in accordance with the resolutions passed by the Board of Directors on 29 April 2016:

- the abolition of the Executive Committee, with the resulting expansion/update of the powers previously granted to the CEO and General Manager;
- the reorganisation of the composition of Board committees;
- the reorganisation of company structures through the establishment of the new Collection Division and the merger of the Central Factoring Division and Central Banking Division into the Central Commercial Division.

On 29 July 2016, the Board of Directors approved the plan for the merger by incorporation of Beta Stepstone S.p.A. into Banca Sistema S.p.A.. The application for authorisation of the merger pursuant to Art. 57,

paragraph 1, of the Consolidated Law on Banking was therefore submitted to the Bank of Italy on the same date.

On the same date, the Board of Directors also acknowledged the quarterly report by the Internal Control Department as at 30.6.2016 (Risk Reporting, Tableau de Bord of the Compliance Department and Tableau de Bord of the Internal Audit Department), as well as the quarterly report on Transactions with Associated Parties within the scope of the Master Resolution, for which the update was approved and the due date set for July 2017. The vehicle Largo Augusto Servizi e Sviluppo S.r.I. (LASS), fully owned by Banca Sistema, with capital of € 4 million, was incorporated on 25 August 2016.

The company's purpose includes, among others, the promotion of and participation in real-estate investment transactions, primarily with companies belonging to the banking group. On 31 August 2016, LASS then purchased a property located at Largo Augusto 1 in Milan, Italy, for a total of  $\leqslant$  21.5 million, which will also be used as the Bank's new headquarters, once the planned restructuring work has been completed.

On 21 September 2016, the Board of Directors acknowledged the "Periodic Report to the Board of Directors and Board of Statutory Auditors from the Surveillance Body concerning the application of the 'Organisation, Management and Control Model pursuant to Legislative Decree 231/2001".

On 10 October 2016, authorisation was received from the Bank of Italy pursuant to Art. 57 of the Consolidated Law on Banking for the merger of incorporation of Beta Stepstone S.p.A. into Banca Sistema. On 15 November 2016, the Board of Directors then decided on the merger which was then finalised on 12 December 2016. The merger became effective beginning on 1 January 2017. On 18 October 2016, the Bank of Italy commenced the inspections regarding the "governance, management and control of credit risk". Then on 22 November 2016, the scope of the inspections being made by the Bank was broadened, upon the request of CONSOB, to include aspects related to investment services provided by the Bank and to the status of companies listed on the stock exchange.

On 19 October 2016, ratings were assigned to the securitisation of the portfolio of salary- and pension-backed loans (CQS and CQP), which has a total value of € 170 million. Moody's and DBRS assigned the senior class (€ 133 million) ratings of Aa2 and A, respectively, and the mezzanine class (€ 16 million) ratings of A3 and BBB, respectively. Those securities will be listed on the Luxembourg Stock Exchange.

The junior class of  $\ensuremath{\in} 2$  1 million is unrated. The senior notes, to date used by Banca Sistema for refinancing operations with institutional investors, will thus be eligible for refinancing operations with the ECB. The deal is in line with the strategy to diversify funding sources and will enable the Bank to pursue its growth targets in this business segment.

On 28 October 2016, the Board of Directors resolved to approve the start of a new business, effective as of 1 December 2016, in the collateralised loans sector, pursuant to Art. 48 of the Consolidated Law on Banking, and the opening of a new branch in Milan, on via Vespri Siciliani, to be dedicated exclusively to this activity.

The branch will begin operating in the first quarter of 2017. On the same date, the Board of Directors also resolved to launch a self-assessment process of the Corporate Bodies which was completed during the meeting on 15 December 2016 with the approval of the "Board of Directors Self-Regulation Document" and the document on the "Optimal qualitative and quantitative composition of the Board of Directors".

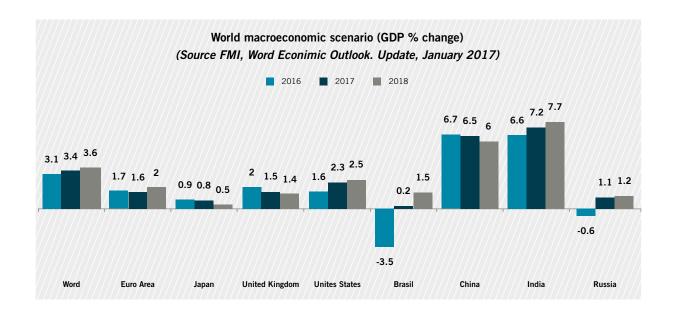

Always on 28 October 2016, the Board of Directors also acknowledged the quarterly report by the Internal Control Department as at 30.9.2016 (Risk Reporting, Tableau de Bord of the Compliance Department and Tableau de Bord of the Internal Audit Department) and verified that the independent directors continue to meet the independence requirements.

On 15 December 2016, the Board of Directors approved certain changes to the Bank's organisational structure. Among these that are worthy of mention, the Head of the Compliance and Anti-Money Laundering Function will report directly to the Board of Directors and the Underwriting Department will be separated from the Finance and Administration Department through the creation of a new Department that reports directly to the General Manager and CEO. These changes became effective beginning on 1 January 2017.

#### THE MACROECONOMIC SCENARIO

The last quarter of 2016 was affected by an event of great importance for the global economy: the presidential elections in the United States. On 8 November 2016, Americans voted for the candidate of the Republican Party, the businessman Donald Trump as the new president in the White House. Even though the global economic conditions improved slightly in the last quarter of 2016, this event caused considerable uncertainty: if on one side the budget policies announced by the new administration might encourage an expansive impact, on the other side the implementation of restrictive commercial measures could lead to unfavourable effects and turmoil in emerging economies. The outlook for global growth is improving, though influenced by the uncertainty of the economic policies. China recorded a modest growth in the last quarter of 2016, shaking off the slowdown of the previous months, even though the series of risks connected to private sector and local government debt persists. Advanced economies recorded a slight expansion in trade in 2016, encouraging growth in global trade, though missing expectations. The same could not be said for emerging economies, which recorded a sharp slowdown. Oil prices are up due to a new agreement to cut production. However, the effects of this increase might not last long due to the geopolitical tensions in the major production areas, and to the possible recovery of production in the US, which would lead to a drop in global demand. In general the monetary policies of both emerging and advanced countries are expansive. Growth continues in the Euro area: as shown in Economic Bulletin no. 1 2017 of the Bank of Italy, issued on 13 January 2017, in the third quarter of 2016 GDP increased by 0.3%, driven by domestic demand components. The reasons for this faster growth are to be sought in increased household spending, government consumption and changes in inventories.

According to the estimates in the Bulletin, also the last quarter was affected by growth at a rate just over the previous period. In December, the €-coin indicator prepared by the Bank of Italy, which measures the underlying performance of the area's GDP, increased again, confirming that economic activity is expanding. Also inflation is up, which in December equalled 1.1 % (0.6% in November), although this was due to the acceleration in the prices of fresh food and energy prices; excluding the volatile factors, the underlying value thus remains stable. To monitor inflation and set suitable monetary conditions to ensure its increase, the Executive Committee of the ECB during the meeting on 8 December extended the duration of the asset purchase programme of the Eurosystem until price stability is achieved. The ECB continues to monitor financial markets more closely, trying to prioritise contacts with other central banks and be ready to provide additional liquidity, if needed. To do so, it introduced four new targeted refinancing operations with longer terms of four years and highly advantageous conditions. On 21 December the third operation was launched, with the aim of stimulating the supply of credit and supporting economic activity and price performance in a number of channels. In the last quarter of 2016, loans to both businesses and households increased, thanks to the stabilisation of the average cost of loans at the lowest level since the monetary union began (about 1.8%). Following the US presidential elections, capital outflows began again in emerging countries, with the depreciation of the currencies and the increase of the volatility expected on exchange rates.

#### **ITALY**

The Italian recovery continues at a modest rate due to an increase in household spending and investments. In the third quarter of 2016, as indicated in Bank of Italy's Economic Bulletin, GDP increased by 0.3%, in line with the European trend and continuing to rise in the last quarter of 2016, though at a limited rate. Industrial activity continues to expand, encouraging a stabilisation in the property sector, though with greater uncertainty in the non-residential sector. Manufacturing activity and retail improved in the third quarter of 2016, while a downturn occurred in the construction sector. Business confidence indicators remained quite high, in any case with uneven performances in the major sectors of the economy, especially in the foreign component. The outlook for investment spending is improving and

an additional increase is expected in 2017, thanks to new incentives for investments in technological assets and the lengthening of those made to reduce the cost of capital. Furthermore, inflation expectations are up, guaranteeing additional support to the appetite to invest.

In addition, in the third quarter of 2016 the net bond funding of Italian companies was positive.

Household consumption continues to strengthen, though at a slower pace than the previous period. The propensity to save increased progressively though remaining at contained levels. During 2016, an increase was recorded in disposable income (about

2.3% compared to the previous period), thanks to the improvements recorded in the employment situation. Spending on durable and semi-durable goods slowed, while the acquisition of non-durable goods and services increased.

Italian household debt continues to decrease in proportion to disposable income (61.4%), remaining below the average for the euro area (95% at the end of June). Interest rates on new loans decreased further. In the third quarter of 2016, exports of goods and services remained stable compared to the previous period. Exports of services increased by 1.3%.

Imports also decreased (0.7% by volume), but at a slower rate. The current account surplus continued to improve, rising to  $\in$  40.4 billion in the first eleven months of 2016 (almost double compared to the same period of the previous year), thanks above all to the strong performance of the trade surplus, due to the decreased expenditure on energy products.

Foreign purchases of Italian government bonds decreased compared to the previous period, especially due to a gradual reset of a portfolio of resident households towards insurance products and the managed savings. Investments in foreign securities by Italian residents continued to increase.

Permanent and temporary employment is up, while growth in labour costs was zero.

Credit to the private sector is growing at a moderate

rate. Loans to households are gaining speed, while loans to businesses are differentiated by sector of economic activity: loans to manufacturing companies and construction firms are down, while credit to service companies continues to rise.

Funding of Italian banks remains substantially stable. Credit quality continues to improve, while remaining high.

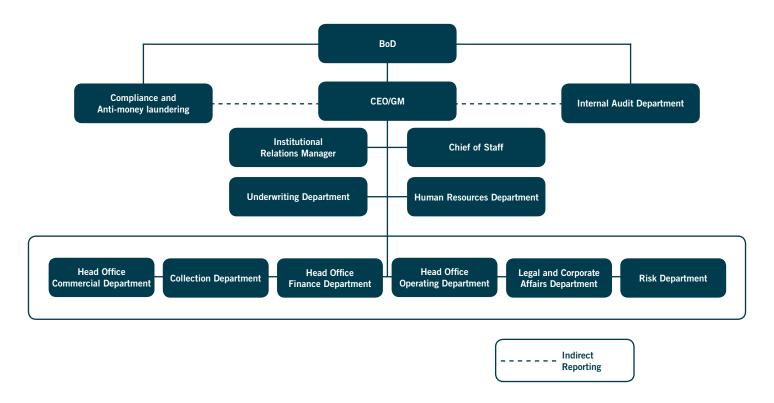

Overall the economic activity may continue to

strengthen, thanks to the accommodating direction of the monetary policies and the gradual strengthening of lending. The risk for the recovery of the global economy arises from the possible implementation of protectionist practises and the turbulence that may derive from the new US presidency and the uncertainties on negotiations that will outline the new trade relations between the European Union and the United Kingdom, following Brexit.

# COMPOSITION AND ORGANISATIONAL STRUCTURE OF THE GROUP

#### **ORGANISATIONAL CHART**

An updated organisational chart of Parent Company, Banca Sistema, is shown below:

# **GENERAL MANAGEMENT**

The following report to the CEO and General Manager:

- Central Commercial Manager
- Central Financial Manager
- Collection Manager
- Risk Manager
- Central Operating Manager
- Legal and Company Affairs Manager
- Underwriting Manager
- Human Resources Manager
- Chief of Staff
- Institutional Relations Manager

# REGISTERED OFFICES AND BRANCHES OF THE BANCA SISTEMA GROUP

The Registered Offices and Branches of the Banca Sistema Group are as follows:

- Milan Corso Monforte, 20 (Registered office and branch)
- Rome Piazzale delle Belle Arti, 8 (Administrative office)
- Pisa Galleria Chiti,1 (branch)
- Padua Via Savonarola, 217 (Administrative office)
- Palermo Via della Libertà, 52 (Administrative office)
- Naples Via Toledo, 156 (Legal and administrative office)
- Watford (UK) CP House, Otterspool Way (Representative Office)

#### **HUMAN RESOURCES**

As at 31 December 2016, the Bank is composed by 130 employees, broken down by category as follows:

FTE	31/12/2016	31/12/2015
Senior managers	18	14
Middle managers (QD3 and QD4)	40	33
Other personnel	72	77
Total	130	124

During the year, a total of 24 new resources joined the Parent Company in the Banking, Collections, and Reconciliation areas, and the Director Middle Office, while 18 resources left the Bank. The average age of employees at the Bank is 40 for men and 38 for women, with women accounting for 41% of the total.

#### **FACTORING**

#### The Italian factoring market

The market situation, as previously highlighted in the first half of 2016, is characterised by overall growth of the sector that exceeds the forecasts published by the most important specialised observers. Data from Assifact in November 2016 shows operator turnover up 8% on the same period in 2015. Preliminary sector turnover estimates for 2016 are more than  $\in$  200 billion compared to  $\in$  185 billion in the previous year. Without recourse factoring is by far the most common form of factoring used by the market (about 70% of total turnover).

Unlike the trend in bank loans, which were severely impacted by the economic crisis that characterised the last 9 years, factoring saw continuous turnover growth of more than 60% over the same period (in 2007, turnover was € 120 billion), demonstrating a certain resilience to negative economic events, as well as being clearly anti-cyclical.

The capacity of the sector to support businesses during the downward phase of the cycle is related to the operators' unique approach to managing risks in which evaluation is not limited to the party being financed, but the quality of the factored receivables and the solvency of the debtors are also considered. The attention paid to managing the factored receivables allows for risk to be better contained with respect to normal bank loans. This further bears out the validity of debtor financing, and factoring in general, from various points of view.

Factoring, as an opportunity for diversification of access to sources of financing for the business world - as in the specific case small and medium enterprises - which is often subject to considerable credit restrictions imposed by the traditional banking industry, has contributed productively to providing financial support for business continuity and growth.

Credit management services, with the constantly expanding skillset possessed by factoring companies, permit considerable simplification of relationships between the participants in the system, which, in the

absence of structural changes in Italy, promote a virtuous process aimed at ensuring better performance in the monetisation of the expected cash flows of suppliers.

In addition, for large companies, factoring services, especially factoring without recourse, are of strategic importance due to their significant contribution to improving net financial position.

This first clear advantage is accompanied by the possibility, through servicing, of receiving full support in solving critical issues in relations with debtors - consider, for example, the public administration - thanks to the specialisation and far-reaching local monitoring ability assured by the most well organised operators.

The analysis of the data provided by ASSIFACT further emphasises that, from the operators' perspective, the Italian market still appears quite concentrated: with over 60% of turnover in 2016, market share is solidly in the hands of the top three factoring companies.

In the Italian market, one of the most important in the world, the demand for factoring services towards the Public Administration represents a significant portion of the market. According to Assifact estimates, around 30% of outstanding receivables are Public Administration debtors, while the sector's exposure is 25%. Despite the efforts made by the Government with the enactment of Legislative Decree no. 35 of 8 April 2013, converted by Law no. 64 of 6 June 2013 with the aim of rectifying the payment of certain, liquid and collectable pre-existing Public Administration debt through the allocation of about € 40 billion and the transposition of the EU regulation on late payments that exacerbated the amount of late payment interest for payments beyond 60 days, public entities continue to have difficulties in fulfilling payment commitments at agreed due dates.

In this regard, mention is quite frequently made in the Italian press of the constant difficulties in relations between suppliers and government entities, as a result of which Italy is still today the worst payer in Europe, with average payment times that are still above 130 days

compared the European average of 45 days.

In the interest of completeness, it should be noted that, while there are still considerable difficulties in properly identifying actual values, recent sources in the press indicate that the stock of outstanding, unpaid receivables is estimated at approximately € 65 billion. If a particular segment of the public administration is considered, namely goods and services provided to Italy's National Health Service, the average payment times reach and exceed 140 days (according to Assobiomedica).

From a geographical standpoint, regional payment performance is rather well defined and may be broken down into three different groups:

Up to 90 days past due: Valle d'Aosta, Friuli Venezia Giulia, Trentino Alto Adige, Lombardy, Marche, Liguria and Veneto.

Up to 180 days past due: Emilia Romagna, Umbria, Basilicata, Abruzzo, Puglia, Tuscany, Lazio and Piedmont.

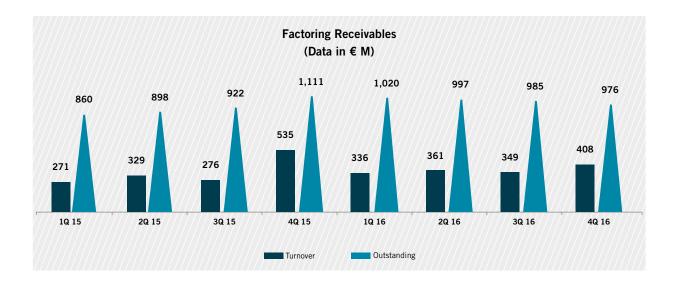

More than 180 days past due: Sardinia, Sicily, Campania, Calabria, and Molise.

In addition, in 2016 the regions with the greatest density of companies remained those in which factoring was most common (Lombardy, Lazio and Piedmont). Considering these statistics, for suppliers the assignment of receivables from public entities, especially without recourse, continues to represent an important tool for rebalancing their finances and entrusting credit collection to third parties. In this context, the sector performs, and will continue to perform, an important role in supporting SMEs even in relation to the difficulties in lending that have come forth in banking system because of increased risk and the subsequent capital reinforcement requirements from the Supervisory Authorities.

The significant growth of factoring in recent decades bears witness to the strategic value of this service in supporting the economic system. In the light of recent developments in the European political situation, the sector's prospects remain stably tied to aspects of development (factoring of tax credits, export factoring, etc.) capable of guaranteeing further margins of volume growth and extension to new services.

#### **Banca Sistema and Factoring Activities**

The December 2016 turnover of Banca Sistema was  $\in$  1,453 million, up 3% on the same period in 2015. Considering the third-party receivables managed, total volumes amount to  $\in$  1,745 million as at 31 December 2016.

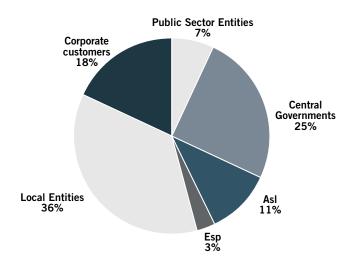

Outstanding loans as at 31 December 2016 amounted to  $\in$  976 million, impacted by the trend in turnover in 2016 and by collections in the period, down 12% on the  $\in$  1,111 million recorded at 31 December 2015, mainly due to the collection trend in 2016, which was

higher than receivable portfolios acquired during the same period.

Collections as at 31 December 2016 stood at  $\in$  1,524 million, up 28% on collections as at 31 December 2015.

The chart below shows the ratio of debtors to the outstanding portfolio as at 31 December 2016.

The Bank's core business remains the Public Administration entities segment.

The Bank works through both direct assignments by companies and within the framework of regional agreements for restructuring or re-organising public entity debts. These transactions include traditional factoring agreements, as well as reverse factoring agreements with highly reliable public entities, which are seeking to use factoring with their suppliers in their role as debtors.

The following table shows the factoring turnover by product type:

PRODUCT	31.12.2016	31.12.2015	€ Change	% Change
Trade receivables	1,290	1,270	20	2%
of which, without recourse	1,002	1,096	(94)	-9%
of which, with recourse	288	174	114	66%
Tax receivables	163	142	22	15%
of which, without recourse	142	123	19	15%
of which, with recourse	21	18	3	14%
TOTAL	1,453	1,411	42	3%

Tax receivables as at 31 December 2016 increased (+15%), partly due to the introduction of split payments in 2015, and include VAT credits from insolvency proceedings as well as IRES receivables.

The number of customers in December 2016 increased

to 337, up 15% on 2015 due to the strengthening of indirect factoring for the PA and private debtors, the extension of the sales network which began in 2015, and as a result of the agreements entered into with banks.

#### Collection and debt recovery activities

For the purposes of its debt recovery activities, the Group uses both its own internal structures, and a network of external operators and companies specialised in debt recovery that are active across the entire country. The network of freelancers used by the Bank enables an exact adjustment of the debt collection activities with regard to each specific debtor or an increase in the number of operators when it becomes necessary to focus on specific areas.

In December 2016, collections managed by the Bank under its credit factoring portfolios totalled  $\[ \in \]$ 1,524 million (up 28% on 2015).

Recovery and reconciliation of collections is divided into out-of-court recovery activity, when invoices are paid according to the internally estimated schedule, and legal recovery activity. In particular, the policy for managing and recovering receivables claimed by Banca Sistema from the public administration has been characterised, since the launch of the business, by an approach that involves legal action only after an out-of-court recovery process.

Clearly, legal action remains the sole remedy available in the event of voluntary non-payment or failure to reach out-of-court agreements with the factored debtor. In particular, legal action is initiated when it is necessary to avoid a loss for the Bank. In addition, the recovery of the late payment interest component is necessary in some cases in order to achieve the expected profitability.

It should be noted that, due to an inefficient judicial system, as often remarked in many institutional settings,

the transition from out-of-court collection to legal collection has the consequence of extending collection times for this latter component. Accordingly, even if the receivables amount subject to legal action remains on average below 10% of the total receivables acquired each year, the effect of delay in the Italian judicial system results in the stratification of the timetable for such receivables subject to legal action and means that 23% of outstanding receivables at the end of December 2016 consisted of receivables subject to legal action. At the close of the first half of 2016, the Bank revised its accounting treatment of late payment interest on the loans in the legal action portfolio, transitioning

from cash accounting to accrual accounting on 30 June 2016.

During the fourth quarter of 2016, in light of the expansion and improvement of the data base related to historically observed collection of late payment interest and the inclusion of the historical collection data series from Beta Stepstone (acquired on 1 July 2016), the Bank implemented a statistical model to determine the expected percentage of recovery. The adoption of this model has led to an increase, in the income statement, in the expected recovery percentage of late payment interest for debtors of the national health system, which went from 15% to 65%.

#### Servicing activities

Through its network of collectors, the Bank manages and reconciles the collection of invoices of third customers. As at 31 December 2016, the amount of third-party

receivables managed by the Bank totalled € 292 million, while the fee and commission income generated by this business segment totalled € 968 thousand.

#### BANKING

#### **Direct funding**

The funding policy of the banking division is strictly linked to changes in trade loans and market conditions. Retail funding accounts for 51% of the total and is composed of the account Si Conto! Corrente and the product SI Conto! Deposito. Total term deposits as at 31 December 2016 amounted to  $\in$  443 million, a decrease of  $\in$  114 million compared to 31 December 2015. The decrease was due to a specific decision by the Bank that is in line with the strategy to diversify funding sources and with a view of optimising costs. Requests for early redemption or withdrawals from accounts were modest (-10%), in keeping with normal performance.

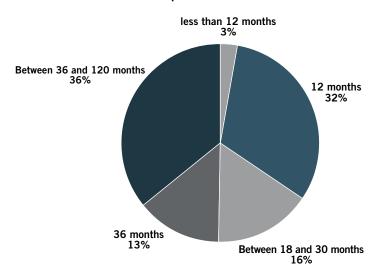

The above-mentioned amount also includes total term deposits of  $\in$  117 million (obtained with the help of a partner platform) held with entities resident in Germany and Austria (accounting for 26% of total deposit funding), an increase of 78 million over the prior year.

The increase benefited from the increase in interest rates in Germany over the course of the year.

There were 11,162 individual customers with term deposits as at 31 December 2016, an increase compared with the figures as at 31 December 2015 (10,693). The average deposit was  $\in$  39 thousand, down compared with the figures as at 31 December 2015 ( $\in$  52 thousand).

The breakdown of funding by term is shown below.

Breakdown of deposit accounts as at 31 December

Current accounts increased from 3,632 (as at 31 December 2015) to 4,111 in December 2016, while the current account balance as at 31 December 2016 was € 451 million, up € 116 million compared with 31 December 2015.

#### **Indirect funding**

Indirect funding from assets under administration as at 31 December 2016 amounted to €113 million (€ 364 million as at 31 December 2015).

The breakdown is as follows:

type (€ M)	31/12/2016	31/12/2015	€ Change	% Change
Bonds	25,162	123,037	(97,875)	-79.5%
Equities	77,945	232,575	(154,630)	-66.5%
Warrants	44	319	(275)	-86.2%
Funds	10,327	8,177	2,150	26.3%
TOTAL	113,478	364,108	(250,630)	-68.8%

#### Guaranteed loans to small and medium-sized enterprises

Granting loans to SMEs guaranteed by the Guarantee fund of the Ministry of Economic Development (Law 662/96) is an instrument that enables companies to access secured credit, and the Bank to grant loans with low risk of impact on the capital in view of the State guarantee (up to 80%); the average guarantee coverage for the Bank is 80%.

In light of the new regulatory measures that are about to be introduced on guarantees to this type of loan, the Bank has decided to suspend granting guaranteed loans to SMEs, redirecting the resources dedicated to SME loans to a segment where there is deemed to be more room for growth, such as salary- and pension-backed loans, also thanks to strategic agreements currently being discussed with leading originators.

As at 31 December 2016, the Group disbursed € 30.0 million (€ 79.0 million in December 2015), with € 79 million outstanding at the end of the period.

	31/12/2016	31/12/2015	€ Change	% Change
No. of applications	90	188	(98)	-52%
Volumes disbursed	30,030	79,015	(48,985)	-62%

As shown in the graphs below, the geographical areas and sectors are quite varied, thus enabling the Bank to benefit from a highly diversified portfolio.

# Salary-backed loans (CQS) and Pension-backed loans (CQP)

Banca Sistema entered the salary- and pension-backed loan (CQS/CQP and to a lesser extent, salary deductions) market in 2014, through the acquisition from other specialist intermediaries of receivables portfolios derived from this specific type of financing. As at 31 December 2016, the Bank has five ongoing agreements with specialist distributors in the sector.

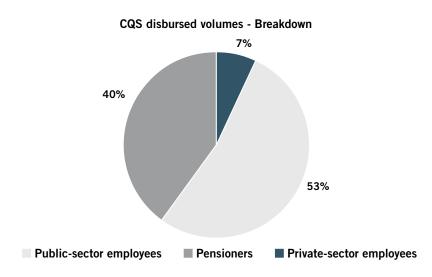

A salary-backed loan (CQS) is a consumer loan product

that allows customers to allocate up to a fifth of their salaries to the payment of loan instalments.

The volumes acquired from the beginning of the year until December 2016 amounted to € 156.7 million, including private-sector employees (7%), pensioners (40%) and public-sector employees (53%). Therefore, over 93% of the volumes refer to pensioners and employees of the PA, which remains the Bank's main debtor.

	31/12/2016	31/12/2015	€ Change	% Change
No. of applications	7,641	5,526	2,115	38%
Volumes disbursed	156,691	114,894	41,797	36%

As shown in the table, the amounts disbursed in 2016 were considerably higher than in 2015 as a result of the agreements concluded by the Bank during 2015.

The geographical breakdown of the pension- and salary-backed loan portfolio is shown below:

# TREASURY ACTIVITIES

#### Treasury portfolio

A proprietary portfolio has been established in order to support liquidity commitments through short-term investment in Italian government bonds. In 2016, the consistency and the duration of the securities portfolio were down considerably compared to the end of 2015 given that the historically low yields on government bonds were not in line with the volatility expectations that impacted the market for a large part of 2016 (Brexit - the constitutional referendum and government crisis - review of Italy's credit rating).

The nominal value of the proprietary portfolio amounts to  $\in$  507 million compared to  $\in$  920 million as at 31 December 2015, with a duration of 6.7 months (9.1 months at 31 December 2015).

In 2016, transactions involving government bonds totalled € 3.4 billion (against € 9.8 billion traded in 2015).

Government bonds are mainly traded on the MTS Italian markets (in which the Bank trades as a market dealer), the European Bond Market (EBM) and through the deal-to-client platforms BondVision and BrokerTec.

#### Wholesale funding

As at 31 December 2016, wholesale funding was about 49% of the total, comprising a new bond issue, repurchase agreements traded on the MTS MMF Repo platform, inter-bank deposits and refinancing operations with the ECB (58% as at 31 December 2015).

In 2016, trading on the MMF Repo screen-based market totalled about  $\in$  82 billion compared to  $\in$  115 billion in 2015.

Participation in the TLTRO II operation proposed by the European Central Bank was settled in the amount of € 122.85 million on 29 June, with maturity on 24 June 2020. The issue of the € 70 million senior bond maturing on 03 May 2018, placed with institutional investors, allowed diversification of the sources of funding and a significant increase in duration of the sources of funding, whereas the securitisation of salary-backed loans allowed positions to be refinanced more efficiently than the traditional types of funding.

The Group also used the interbank deposit market both through the e-MID market and through bilateral agreements with other banks. In particular, it should be noted that the securitisation of Quinto Sistema Sec. 2016, completed with a partly-paid securities structure

and "progressive growth of the securitised portfolio" (a "warehouse" structure) permitted an efficient and effective source of funding dedicated to the CQS portfolio to be maintained throughout the year. In fact, during 2016, through the conclusion of successive guaranteed refinancing agreements ("over the counter REPOs"), the securitised senior notes were refinanced with more advantageous conditions with respect to the traditional types of funding up until the time they were officially eligible as collateral for Eurosystem refinancing transactions, as they are at 31 December 2016. Existing bank deposits amounted to € 300 million, compared to € 282 million as at 31 December 2015. In 2016 trading volumes were € 2.2 billion, compared to € 2.8 billion in 2015.

The listing of the shares of Banca Sistema on the Milan Stock Exchange permitted a sharp improvement in interbank relations, facilitating the granting of MM lines of credit. Such funding allows short-term treasury needs to be met by exploiting the extremely low level of interest rates, with the possibility of drawing funds from the interbank market in a manner useful to diversifying funding.

# THE MAIN BALANCE SHEET AGGREGATES

The comments on the main aggregates on the asset side of the statement of financial position are shown below.

ASSETS (€,000)	31/12/2016	31/12/2015	€ Change	% Change
Cash and cash equivalents	96	104	(8)	-7.7%
Financial assets held for trading	996	-	996	n.a.
Financial assets available for sale	514,838	925,402	(410,564)	-44.4%
Due from banks	71,282	1,996	69,286	3471.2%
Loans to customers	1,312,636	1,459,255	(146,619)	-10.0%
Equity investments	61,628	2,378	59,250	2491.6%
Property and equipment	812	1,047	(235)	-22.4%
Intangible assets	1,821	1,872	(51)	-2.7%
of which: goodwill	1,786	1,786	-	0.0%
Tax assets	4,954	7,353	(2,399)	-32.6%
Other assets	13,447	12,587	860	6.8%
Total assets	1,982,510	2,411,994	(429,484)	-17.8%

The 2016 financial year ended with total assets of  $\leqslant$  2 billion, down 18% on 2015, mainly as a result of the decision to maintain a reduced exposure to Italian government bonds (-45%) and the changes in collections of factored receivables, which affected the stock at the end of the period.

The Bank's AFS (available-for-sale) securities portfolio is mainly comprised of Italian government bonds with an average remaining duration of about 7 months as at 31 December 2016 (the average duration at the end of 2015 was 9 months) and is in line with the Bank investment policy to retain securities with durations under 12 months. The government bond portfolio amounted to €508 million

(€ 920 as at 31 December 2015).

The valuation reserve for government securities was  $\in$  221 thousand net of tax. The AFS portfolio also includes 200 stakes of the Bank of Italy with a value of  $\in$  5 million purchased in July 2015 and the value at 31 December of the Axactor security, which represented the part of the price paid in the form of shares within the framework of the agreement for the sale of the shares of CS Union.

Since 31 December, that security's fair value increased by € 458 thousand, net of the tax effect of € 226 thousand, thus resulting in a period-end value of € 2.0 million. The increase in the item 'due from banks' can be attributed to liquidity funding in the ECB account.

LOANS TO CUSTOMERS (€,000)	31/12/2016	31/12/2015	€ Change	% Change
Factoring	930,812	1,049,832	(119,020)	-11.3%
Salary-/pension-backed loans (CQS/CQP)	265,935	120,356	145,579	121.0%
Loans to SME	78,976	83,111	(4,135)	-5.0%
Reverse repurchase agreements	-	177,868	(177,868)	-100.0%
Current accounts	31,977	15,170	16,807	110.8%
Compensation and Guarantee Fund	4,684	12,486	(7,802)	-62.5%
Other receivables	252	432	(180)	-41.7%
Total	1,312,636	1,459,255	(146,619)	-10.0%

"Loans to customers" mainly comprise outstanding loans for factoring receivables, down from 82% to 71% in the item. Salary- and pension-backed loans grew by more than 100% compared to the end of 2015 as a result of newly acquired volumes equal to € 157 million, while government-backed loans to SMEs remained generally in line with 2015, as disbursements partially offset collections during the period.

As at 31 December 2016 the book value of factoring receivables is down by 11.3% on 31 December 2015, mainly as a result of the trend in collections recorded in 2016 ( $\in$  1,550 million). The cumulative turnover figure at 31 December 2016 thus amounted to  $\in$  1,453 million ( $\in$  1,411 million in the previous year). The number of turnover-generating customers during 2016 was 337, of which 192 were new customers in 2016.

As mentioned above, securitisation of salary-backed loans began in 2016, as projected in the business plan.

The amount of the receivables factored to the special-purpose vehicle in four different periods was  $\in$  197.9 million ( $\in$  182.3 million outstanding at the end of the period), compared to the ABSs of the special-purpose vehicle Quinto Sistema S.r.I. (the SPV), fully subscribed by the Bank, of a total  $\in$  190 million at 31 December 2016.

On 19 October, Moody's and DBRS assigned ratings to the Class A (Senior) and Class B (Mezzanine) notes. On 20 October, the notes were listed on the Luxembourg Stock Exchange and the prospectus, which complies with the Prospectus Directive, was published. Since the securities are completely held by the Bank, the conditions for derecognition of the loans have not been met. Therefore, the loans have been re-recorded in the accounts as assets sold and not derecognised with a balancing entry against the subscribed asset-backed securities (ABS).

The following table shows the quality of receivables in the "loans to customers" item, without considering the amount relating to reverse REPOs during the periods in which that investment was present.

STATUS	31/12/2015	31/03/2016	30/06/2016	30/09/2016	31/12/2016
Bad loans	20,021	23,426	29,936	36,019	35,229
Unlikely to pay	5,913	4,722	10,586	11,133	19,748
Overdue payments/defaults>1	80 days 65,419	64,395	64,664	96,028	64,775
Non-performing	91,353	92,543	105,186	143,180	119,752
Performing	1,172,410	1,111,123	1,085,778	1,150,176	1,176,646
Other loans to customers					
(excluding REPOs)	26,732	28,995	15,293	19,670	36,816
Total excluding REPOs	1,290,495	1,232,661	1,206,257	1,313,026	1,333,214
Individual adjustments	7,137	8,284	9,969	12,109	16,246
Collective adjustments	3,233	3,557	3,531	4,198	4,331
Total adjustments	10,370	11,841	13,500	16,307	20,578
Net exposure	1,280,125	1,220,820	1,192,757	1,296,719	1,312,636

The ratio of net non-performing loans to the total in the portfolio (net of reverse repos) is up from 7.1% as at 31 December 2015 to 9.0% as at 31 December 2016, mainly due to increases in bad loans and unlikely to pay. Net bad loans amounted to 1.7% of total loans to customers, remaining at moderate levels. The increase in the quarter in loans classified as "unlikely to pay" is mainly due to a deterioration in factored receivables due from public companies, and to a lesser extent, from loans to SMEs. The amount of past due loans is mainly attributed to factoring receivables without recourse from the Public Administration and is considered normal for the sector and does not represent an issue in terms of credit quality and probability of collection.

During the quarter, the provision for value adjustments increased as a result of an increase of up to 100% in the value adjustment percentage on the SME portfolio from a thorough and more prudent overall assessment of 20% of the portfolio that is not guaranteed by the Guarantee fund of the Ministry of Economic Development, and from the value adjustments on specific factoring positions between private parties.

The coverage ratio of bad loans has increased to 34.8% as at 31 December 2016 (30.6% as at 31 December

2015): this percentage, since it is impacted by factoring of receivables from distressed local authorities, is entirely appropriate.

The Bank is completing a process related to a valuation model for the provision for bad loans deriving from Public Administration debtors on Factoring products, the first results of which give a higher probability of recovery that what is currently estimated.

Compared to the end of the previous year, there were no temporary investments in reverse repurchase agreements (€ 178 million at the end of 2015). The amounts of the cash used in the Compensation and Guarantee Fund to finance transactions in repurchase agreements with bank customers decreased significantly due to the reduction of the securities portfolio.

Equity investments includes the following wholly owned subsidiaries that fall within the scope for full consolidation in the Group's consolidated financial statements:

- Largo Augusto Servizi e Sviluppo S.r.I. (LASS) with a book value of €4 million;
- Beta Stepstone S.p.A. (hereinafter "Beta") with a book value of €56.7 million;
- SF Trust Holding (hereinafter "SFTH") which was

completely written off in previous years.

LASS is a wholly owned vehicle established during the third quarter of 2016 with fully paid-in share capital of € 4 million. On 31 August 2016, the subsidiary, using a loan from the Parent Company, purchased a property for € 21.5 million that will be used as the Bank's new headquarters once the planned renovation work has been completed.

Beta is a factoring company acquired on 1 July 2016 for an acquisition price of € 56.7 million, net of certain contractual adjustments and reductions of €3.5 million. During the acquisition process, the amount of late payment interest receivable not yet collected by Beta was placed in an escrow account, release of which to the seller is conditional solely on the collection of that late payment interest, fully securing the receivable in question. Equity

investments also include the Bank's current equity stake of 10.0% in CS Union S.p.A., a company operating on the financial and commercial bad loans management market, as well as in the management and recovery of receivables between individuals. As previously described, in the context of the strategic collaboration agreement between Banca Sistema and Axactor, in the second quarter of 2016 the Bank finalised the sale to Axactor of the 15.8% equity interest held in CS Union, recording a capital gain of € 2.4 million.

The price of sale was settled 60% in cash and the remainder in shares of Axactor.

Other assets include amounts being processed after the end of the reference period and advance tax payments of approximately  $\in$  10.5 million.

Comments on the main aggregates on the liability side of the statement of financial position are shown below.

Wholesale funding represents about 49% of the total (58% as at 31 December 2015), down compared to the end of 2015 due to a decrease in repurchase agreements traded through the MTS platform (classified under "due to customers", since there is no direct balancing entry

with banks). There was an increase in the weight of bond funding, which rose from 2% to 11% of the total wholesale funding, thanks to the private placement of a senior bond of €70 million maturing in two years, as well as the greater use of funding from the ECB.

DUE TO BANKS (€,000)	31/12/2016	31/12/2015	€ Change	% Change
Due to Central banks	192,850	80,002	112,848	141.1%
Due to banks	265,276	282,073	(16,797)	-6.0%
Current accounts and demand deposits	20,039	10,328	9,711	94.0%
Term deposits	245,237	271,745	(26,508)	-9.8%
Total	458,126	362,075	96,051	26.5%

Amounts due to banks increased compared to 31 December 2016 due to the increase in refinancing operations with the ECB with the ABS from the securitisation of salary- and pension-backed receivables (CQS/CQP) as collateral, which allowed for funding of € 120.4 million to be obtained. Retail loans were placed as collateral for the remaining amount. The Bank also participated in the TLTRO II

auction for € 123 million, with a duration of four years and current expected rate of -40bps. This potential revenue was not recognised in that it will only become certain on the maturity date; a rate of 0% was instead considered. As at 31 December 2016, there was a funding on the interbank market in the form of term deposits with an average duration of about 2 months.

DUE TO CUSTOMERS (€,000)	31/12/2016	31/12/2015	€ Change	% Change
Term deposits	443,395	572,379	(128,984)	-22.5%
Funding (repurchase agreements)	295,580	909,089	(613,509)	-67.5%
Current accounts and demand deposits	451,281	335,574	115,707	34.5%
Deposits with Cassa Depositi e Prestiti	35,615	30,603	5,012	16.4%
Due to assignors	30,972	30,694	278	0.9%
Total	1,256,843	1,878,339	(621,496)	-33.1%

The period-end stock of term deposits was down 22.5% on the end of 2015, reflecting net negative deposits (net of interest accrued) of  $\in$  126.5 million; gross deposits from the beginning of the year were  $\in$  425.4 million, against withdrawals caused mainly by non-renewals totalling  $\in$  551.9 million. The reduction in funding from deposit accounts is in line with the Bank's need to diversify and contain the costs of funding.

Funding from repurchase agreements was also down mainly as a result of the smaller securities portfolio. Amounts due to customers also include funding of € 34.8 million from Cassa Depositi e Prestiti obtained against collateral consisting solely of loans to SMEs by the Bank. Other amounts due include payables related to receivables acquired but not funded.

The balance of debt securities issued increased compared to 31 December 2016 due to the new issue of bonds placed with institutional customers.

The item's composition was as follows:

- Tier 2 subordinated loan of € 12 million, set to mature on 15 November 2022;
- Tier 1 subordinated loan of € 8 million, with no maturity (perpetual basis);
- senior bond of € 70 million, set to mature on 3 May 2018.

The provision for risks and charges mainly refers to the portion of the 2015 bonus deferred to the following three years.

Some service providers have recently initiated legal action seeking payment of consideration for services

rendered that, in the Bank's opinion, did not require any additional provisions. "Other liabilities" mainly include payments received after the end of the period from the

assigned debtors and which were still being allocated and items being processed during the days following period-end, as well as trade payables and tax liabilities.

# CAPITAL ADEQUACY

Provisional information concerning the regulatory capital and capital adequacy of Banca Sistema is shown below.

OWN FUNDS (€,000) AND CAPITAL RATIOS	31/12/2016	31/12/2015
Common Equity Tier 1 (CET1)	103.937	86.892
TIER1	8.000	8.000
Additional Tier 1 capital (T1)	111.937	94.892
TIER2	12.092	12.000
Total Own Funds (TC)	124.028	106.892
Total risk weighted assets	795.949	635.658
of which, credit risk	661.824	535.194
of which, operational risk	129.531	100.464
of which, market risk	4.595	0
CET1	13,06%	13,67%
<u>T1</u>	14,06%	14,93%
LCR	15,58%	16,82%

Total own funds were  $\in$  124 million as at 31 December 2016 and included the profit for 2016, net of dividends estimated on the profit for the year of 2016 of  $\in$  6.1 million. The estimate was made based on a pay-out of 25%.

The increase in RWAs compared to 31 December 2015, was primarily due to the increase in loans, particularly salary- and pension-backed loans, the increase in past-due loans to the public administration and the purchase of the property.

# CAPITAL AND SHARES

#### Capital and ownership structure

The share capital of Banca Sistema is composed by 80,421,052 ordinary shares, for total paid-in share capital of  $\notin 9,650,526.24$ . All outstanding shares have regular dividend entitlement from 1 January.

Based on evidence from the Shareholders' Register and

more recent information available, as at 18 January 2017 the shareholders with stakes of more than 5%, the threshold above which Italian law (art. 120 of the Consolidated Law on Finance) requires disclosure to the investee company and Consob, were as follows:

SHAREHOLDERS	% HELD	
SGBS S.r.I. (Management Company)	23.1%	
Garbifin	0.5%	
Fondazione Sicilia	7.4%	
Fondazione Cassa di Risparmio di Alessandria	7.4%	
Fondazione Pisa	7.4%	
Schroders	6.7%	
Market	47.5%	

#### Treasury shares

As at 31 December 2016, Banca Sistema held 25,000 treasury shares ("Treasury Shares") to service the incentive plans for the Group's key personnel, i.e. an equity interest of 0.031%.

#### Stock performance

The shares of Banca Sistema are traded on the Mercato Telematico Azionario - Italian Equities Market (MTA) of the Italian Stock Exchange, STAR segment. The Banca Sistema stock is included in the following Italian Stock Exchange indices:

- FTSE Italia All-Share Capped;
- FTSE Italia All-Share;
- FTSE Italia STAR;
- FTSE Italia Servizi Finanziari;
- FTSE Italia Finanza;
- FTSE Italia Small Cap.

Profit (loss) for the period	25,576	22,864	2,712	11.9%

The 2016 results were normalised to exclude the extraordinary contribution to the National Resolution Fund of  $\in$  1.3 million ( $\in$  0.9 million net of tax) and costs related to the integration of Beta for  $\in$  0.3 million, both of which are classified under the 'other administrative expenses'. It should also be recalled that the economic results at 31 December 2015 have been normalised in order to eliminate the extraordinary contribution to the National Resolution Fund (FRN) of  $\in$  1.9 million ( $\in$  1.3 million net of tax) and non-recurring costs pertaining to the listing process included in personnel expenses and other administrative expenses of  $\in$ 6.5 million ( $\in$  4.6 million net of tax).

The 2016 financial year closed with a profit of  $\leqslant$  25.6 million, an increase of 11.9% over 2015, mainly as a result of increased interest margins that more than

offset the increased loan value adjustments and higher operating costs. As described above, the increase in the interest margin was due in part to the recognition of € 11.3 million of late payment interest, which represents the portion of the late payment interests accrued at 31 December 2016 that may reasonably be expected to be recovered: before 30 June 2016, late payment interest was recognised on a cash basis.

On 30 June 2016, the Bank revised its accounting treatment of late payment interest in accordance with IFRS as a result of the experience gained and the systematic implementation of out-of-court and judicial recovery measures for past-due receivables, transitioning from cash accounting to accrual accounting only for receivables subject to legal action. On average, the percentage of total receivables acquired each year that

are subject to legal action is less than 10%. During the fourth quarter of 2016, in light of the expansion and improvement of the data base related to historically observed collection, the inclusion of the historical data series of collections from Beta Stepstone, as well as regulatory clarifications (content of the document regarding the "Financial statement treatment of late payment interest pursuant to Legislative Decree 231/2002 on permanently acquired non-performing positions" of 9 December 2016), the Bank completed an analysis of the recovery estimates and implemented a statistical model to determine the expected percentage of recovery in order to record them in the income statement.

This model, considering the size of series from Beta,

resulted in an increase in the expected recovery percentages for debtors of the national health system, which went from 15% to 65% with a resulting increase in the percentage used for financial statement purposes compared to the previous quarters. Whereas for late payment interest on other public administration debtors, despite the late payment interest recovery percentages and the model would have resulted in an allocation percentage greater than 15%. The recovery percentages used in June were prudently confirmed. Had the Bank applied the rates provided by the model, interest income would have been higher by  $\leqslant 15.8$  million.

The result for 2016 also includes the realised capital gain deriving from the sale of a 15% interest in CS Union to Axactor of  $\in$  2.4 million.

INTEREST MARGIN (€,000)	31/12/2016	31/12/2015	€ Change	% Change
Interest and similar income				
Receivables portfolios	83,460	77,685	5,775	7.4%
Securities portfolio	(237)	813	(1,050)	-129.2%
Other	636	760	(124)	-16.3%
Total interest income	83,859	79,258	4,601	5.8%
Interest expense and similar expense				
Due to banks	(1,832)	(1,198)	(634)	52.9%
Due to customers	(11,385)	(18,587)	7,202	-38.7%
Securities issued	(2,141)	(1,228)	(913)	74.3%
Total interest expense	(15,358)	(21,013)	5,655	-26.9%
Interest margin	68,501	58,245	10,256	17.6%

The interest margin improved by 17.6% compared to the previous year due to a significant decrease in the cost of funding and a greater contribution deriving from the salary- and pension-backed loan portfolios. As previously described, following the refinement of the internal assessment methods and the greater amount of data available, part of the late payment interest accrued up to 31 December 2016 has been recognised in the income statement, but solely for invoices subject to recovery through legal action; this total interest (which amounts to 7% of total late payment interest accrued as at 31 December 2016 on invoices collected and

still outstanding) represents the amount prudentially estimated and deemed recoverable of the total interest accrued on invoices the recovery of which has passed to legal action.

Considering the gradual rise in the turnover from factoring, there was an increase in the amount of late payment interest accrued on settled and outstanding invoices, which amounted to approximately € 170.8 million, net of the amount already allocated, at 31 December 2016 (€ 70.2 million on collected invoices). In 2016, the late payment interest collected, primarily on portfolios acquired in previous years, amounted to

 $\in$  5.8 million, compared to  $\in$  2.9 million in all of 2015. Collections include  $\in$  2.3 million from the sale of late payment interest receivables to third parties.

The amount resulting from the change of the estimation methods concerning the recoverability of such interest was  $\in$  11.3 million, of which  $\in$  5.7 million as the effect of the change of the estimation method compared to the previous period.

The policy adopted by Banca Sistema in managing and recovering receivables claimed from the Public Administration continues to be characterised by an approach that involves legal action only in cases of voluntary non-payment or when there is a failure to reach out-of-court agreements with the assigned debtor. In particular, legal action is always initiated when it is necessary to avoid a loss for the Bank. In addition, the recovery of the late payment interest component is necessary in some cases in order to achieve the expected profitability.

Interest income from the receivables portfolio continues to be mainly composed of revenues generated by the factoring receivables portfolio, which accounts for 84% of total interest income. Due to the reduction in average collection times, profitability declined compared to the previous year, net of the late payment interest component. In 2016, the increase in the tax receivables portfolio contributed to the stability of the contribution of

the factoring portfolio.

The increase in the margin was also driven by the marked growth in interest on the salary-backed portfolios, which rose from  $\in$  2.6 million to  $\in$  7.4 million, and in part from the increase on the SME portfolios which contributed about  $\in$  5.4 million to the total.

The negative performance of the securities portfolio, a result of the ECB's interest rate policy, should be linked to the funding cost which was positive. Overall, the carry trade remains positive.

Other interest income mainly includes income generated by revenue from hot money transactions and current accounts.

Funding costs fell compared with the previous year following a general reduction in market rates, which has had a positive impact on wholesale funding, especially from repurchase agreements, but particularly as a result of a focus on the customer deposit diversification and management policy, which allowed for the substitution of term deposit renewals with lower rates compared to those expiring. The increase in interest due to banks was primarily due to the cost of funding from other banking institutions, the exposure to which, in 2016, was significantly greater than in 2015.

As a result of the current interbank rates and ECB policies, funding through REPOs did not generate any interest expense.

COMMISSION MARGIN (€,000)	31/12/2016	31/12/2015	· € Change	% Change
Fee and commission income				
Collection activities	968	1,108	(140)	-12.6%
Factoring activities	8,749	10,905	(2,156)	-19.8%
Other	788	729	59	8.1%
Total fee and commission income	10,505	12,742	(2,237)	-17.6%
Fee and commission expense				
Placement	(1,509)	(1,031)	(478)	46.4%
Other	(371)	(541)	170	-31.4%
Total fee and commission expense	(1,880)	(1,571)	(309)	19.7%
Commission margin	8,625	11,171	(2,546)	-22.8%

Net fees and commissions, equal to €9 million, were down by 23%, primarily due to lower commissions on factoring business as a result of lesser use of products with commissions.

Commissions on collection activity, related to the service of reconciliation of third-party invoices collected from the public administration are down slightly compared to the prior year, while other fee and commission income, which primarily includes commissions on collection and payment services and the keeping and management of current accounts, remained stable compared to the previous year.

The placement fees and commissions paid to third parties increased due to their close correlation with the increase in the factoring volumes disbursed. Such fees and commissions include the costs of origination of factoring receivables of €954 thousand (up 22% on the same period of last year), while the remainder includes returns to third party intermediaries for the placement of the SI Conto! Deposito product, which grew as a result of the higher volumes placed in Germany. Other commission expenses include commissions for trading third-party securities and for interbank collections and payment services.

RESULTS OF THE SECURITIES  PORTFOLIO (€,000)	31/12/2016	31/12/2015	€ Change	% Change
Profit (Loss) on trading				
Profit (loss) realised on trading portfolio				
debt securities	(105)	152	(257)	-169.1%
Total	(105)	152	(257)	-169.1%
Profit (loss) from disposal or repurchase				
Profit (loss) on AFS portfolio debt securities	es 1,280	2,518	(1,238)	-49.2%
Total	1,280	2,518	(1,238)	-49.2%
Total profit (loss) from the securities portfo	olio 1,175	2,670	(1,495)	-56.0%

During 2016, profits generated by the proprietary portfolio made a smaller contribution than in same period of last year due to less favourable market performance.

Credit risk adjustments made at 31 December 2016 totalled € 10.2 million of which € 4.3 million in the fourth quarter mainly after increasing the value adjustment percentage to 100% specifically for the SME portfolio which resulted from a thorough and more prudent overall assessment of 20% of the portfolio that is not guaranteed by the Guarantee fund of the Ministry of Economic Development, and from the value adjustments on specific factoring positions between

private parties classified as "unlikely to pay". Also, the collective value adjustment percentage of the SME portfolio was increased during the first quarter of 2016. The analytical adjustments made in the previous quarters were mainly due to the classification of new positions of entities in distress and of new SMEs in the "bad loans" category. The loss rate, following what was illustrated above, amounted to 79 bps, which is up on the previous year.

PERSONNEL EXPENSES (€,000)	31/12/2016	31/12/2015	€ Change	% Change
Wages and salaries	(11,055)	(10,151)	(904)	8.9%

Directors' and statutory auditors' remunera	ation (855)	(532)	(324)	60.8%
Total	(14,171)	(12,670)	(1,501)	11.8%

The increase in personnel costs is mainly due to the increase in wages and salaries from new staff hiring, beginning during the second half of 2015, with higher costs compared to the previous average.

As at 31 December 2016 the item also includes total costs relating to voluntary redundancy payments of  $\in$  250 thousand, compared to  $\in$  206 thousand in the previous year.

Stationery and printing	(102)	(57)	(45)	78.9%
Insurance	(204)	(66)	(138)	209.1%
Discretionary payments	(3)	(9)	6	-66.7%
Total	(20,394)	(20,787)	393	-1.9%

Other administrative expenses decreased by 2% compared to the previous year, primarily due to the combined effect of a reduction in servicing costs that more than offset the increases in consultancy costs.

In particular, costs related to collection and servicing activities decreased as a result of the internalisation of the management of some portfolios that were previously managed externally and from a reduction in the cost percentage applied to managed collections.

The rise in computer expenses is linked to the increase in services provided by the outsourcer due to the increase in Group operations and IT updates on new products.

Consultancy costs increased due to the fact that part of the costs of projects correlated with new initiatives in 2016 were recognised during the period. In particular, the figure at 31 December 2016 includes  $\in$  1.3 million of costs tied to the securitisation,  $\in$  1.1 million of due diligence and consultancy costs relating to actual and potential acquisitions of new companies (of which  $\in$  0.3 thousand related to the acquisition of Beta).

The other administrative expenses at 31 December 2016 were normalised and therefore do not include € 0.3 million

in costs related to the merger and integration of Beta or the allocation of the extraordinary contribution to the National Resolution Fund of  $\in$  1.3 million. In 2015, the other administrative expenses were normalised for costs related to the IPO of  $\in$  2.4 million and the extraordinary contribution to the National Resolution Fund of  $\in$  1.9 million. Other expenses and income primarily consist of income deriving from the refund by the National Interbank Deposit Guarantee Fund of the sum of  $\in$  290 thousand paid by the Bank in 2014 for the default of Banca Tercas, following the Bank's decision not to participate in the form of voluntary contribution described below. The item also includes  $\in$  347 thousand for the 2016 contribution to the Deposit Guarantee Schemes.

Profit (loss) from equity investments includes not only the capital gain on the sale of 15.8% of the interest in CS Union, but also the pro-rata loss for the period referring to the current 10% interest in CS Union.

The Group's tax rate decreased compared to the previous half-year, primarily due to the application of the participation exemption ("Pex") to the capital gain recorded on the sale of part of the interest in CS Union.

The following shows the reconciliation of the normalised and statutory income statement for 2016.

INCOME STATEMENT (€,000)	2016 NORMALISED	NORMALISATION	2016 STATUTORY

Profit (loss) for the period	22.863	(4.576)	(1.250)	17.037

Personnel expenses include a gross variable component recognised to the management and linked to the Bank's listing.

The other administrative expenses mainly include share

placement commissions, consultancy costs and other costs linked to the listing process.

The sum of  $\in$  1.9 million comprises the extraordinary contribution to the National Resolution Fund.

### RISK MANAGEMENT AND SUPPORT CONTROL METHODS

With reference to the functioning of the "Risk Management System", the Bank has adopted a system based on four leading principles:

- suitable supervision by relevant company bodies and functions;
- suitable policies and procedures to manage risks (both in terms of credit risk and the granting of loans);
- suitable methods and instruments to identify, monitor and manage risks, with suitable measuring techniques;
- thorough internal controls and independent audit.

The "Risk Management System" is monitored by the Risk Division, which ensures that capital adequacy and the degree of solvency with respect to its business are kept under constant control.

Management continuously analyses the Bank's operations to fully identify the risks the Bank is exposed to (risk map). To reinforce its ability to manage corporate risks, the Bank has set up a Risk Management Committee and ALM, whose mission is to help the Bank define strategies, risk policies, and profitability and liquidity targets.

The Risk Management Committee and ALM continuously monitor relevant risks and any new or potential risks arising from changes in the working environment or scheduled Group operations.

Pursuant to the eleventh amendment of Bank of Italy Circular 285/13, within the framework of the Internal Control System (Part I, Section IV, Chapter 3, Subsection II, Paragraph 5) the Bank entrusted the Internal Control Committee and Risk Management with the task of coordinating the second and third level Control Departments; to that end, the Committee allows the integration and interaction between these Departments, encouraging cooperation, reducing overlaps and supervising operations.

During the year, the Bank modified its second level control structure by separating the Compliance Department from the Risk Management Department, and assigning the head of the new department the role of Compliance Officer.

With reference to the risk management framework, the

Bank adopts an integrated reference framework both to identify its own risk appetite and for the internal process of determining capital adequacy.

This system is the Risk Appetite Framework (RAF), designed to make sure that the growth and development aims of the Bank are compatible with capital and financial solidity. The RAF comprises monitoring and alert mechanisms and related processes to take action in order to promptly intervene in the event of discrepancies with defined targets. The framework is subject to annual review based on the strategic guidelines and regulatory changes.

The ICAAP (the Internal Capital Adequacy Assessment Process) allows the Bank to conduct ongoing tests of its structure for determining risks and to update the related safeguards included in its RAF.

With regard to protecting against credit risk, along with the well-established first level controls and the periodic monitoring put in place by the Risk Management Department, the Bank is completing a process related to a valuation model for the provision for bad loans deriving from Public Administration debtors on Factoring products. The main assumption of this model is the absence of credit risk for PA debtors through the allocation of a provision for each invoice once the expected collection date has passed, that is, the end of the discount period, and is based on the actual value of expected future cash flows, taking into account the recovery times. The analysis is expected to be concluded in the first half of 2017.

With regard to the monitoring of credit risk, the Bank (beginning in April 2016) has a dedicated collection department (Collection Division) which reports directly to the CEO and whose operations are regulated by a specific internal policy.

It should also be noted that, in accordance with the obligations imposed by the applicable regulations, each year the Bank publishes its report (Pillar 3) on capital adequacy, risk exposure and the general characteristics of the systems for identifying, measuring and managing risks. The report is available on the website www.bancasistema. it in the Investor Relations section.

In order to measure 'Pillar 1 risks', the Group has adopted standard methods to calculate the capital requirements for Prudential Regulatory purposes.

In order to evaluate "Pillar 2" risks, the Bank adopts - where possible - the methods set out in the Regulatory

framework or those established by trade associations.

If there are no such indications, standard market practices by operators working at a level of complexity and with operations comparable to those of the Bank are assessed.

### New regulatory and tax provisions

# BRRD (Bank Recovery and Resolution Directive - 2014/59/EU)

The BRRD (the Bank Recovery and Resolution Directive - 2014/59/EU) established new resolution rules, applicable from 1 January 2015 to all banks in the European Union, and its measures are financed, with effect from 1 January 2015, by the National Resolution Fund, which, with effect from 1 January 2016, was merged into the Single Resolution Fund (SRF). In fact, with effect from that date, the national funds of all countries belonging to the monetary union, instituted in 2015 in accordance with the BRRD, were merged into the Single Resolution Fund. On 29 April 2016, with subsequent ratification on 27 May 2016, the Bank of Italy, as the resolution authority, gave notice of the ordinary contribution due for 2016, calculated

in accordance with Commission Delegated Regulations 2015/63 and 2015/81.

As at 30 June 2016, in application of IFRIC 21 Levies, the Bank recognised the full contribution of  $\leqslant$  655 thousand ( $\leqslant$  617 thousand in 2015) in the income statement, under other administrative expenses.

The Bank of Italy, through the Communication dated 27 December 2016, called for two years of additional contributions for 2016 pursuant to Article 1, paragraph 848, of Law no. 208 of 28 December 2015, given Article 25 of Law Decree no. 237 of 23 December 2016. The amount of the extraordinary contribution, which was fully accounted for in the 2016 income statement, was € 1.3 million.

# DGS (Deposit Guarantee Schemes) Directive (former National Interbank Deposit Guarantee Fund)

The publication in the Official Journal of the Italian Republic no. 56 of 8 March 2016 of Legislative Decree no. 30 of 15 February 2016 marked the transposition of the DGS Directive (Deposit Guarantee Schemes - 2014/49/EU), aimed at increasing the protection of depositors and harmonising the regulatory framework at the European level.

The calculation criteria, and thus the amount of the contribution for 2016, have yet to be defined. As at 31 December 2015, an additional mechanism beyond that governed by the DGS Directive was in place on a voluntary basis (the "Voluntary Scheme"), with the aim

of supporting banks under receivership or in distress, in which the Group elected not to participate. The Bank began to operate in late 2011 and thus decided not to contribute to losses deriving from events that occurred prior to the Bank's existence. Accordingly, on 26 April 2016 the National Interbank Deposit Guarantee Fund gave notice of the refund of the contribution previously paid for Banca Tercas (which the European Commission considered as "state aid") of € 290 thousand, recognised in income statement under other operating income. The amount of the contribution for the 2016 financial year was € 347 thousand.

### **New Contracting Code**

The text of the new Contracting Code (Legislative Decree no. 50 of 18 April 2016) was published in Italy's Official Journal on 19 April 2016. Article 106 (13) of the Code reads as follows:

"13. The provisions of Law no. 52 of 21 February 1991 shall apply. To be enforceable on contracting authorities, the assignment of receivables must be witnessed by a public deed or authenticated private agreement and the debtor administrations must be notified. Without prejudice to the observance of traceability obligations, assignment of receivables deriving from consideration for tenders, concessions and planning competitions is valid and binding on contracting authorities that are public administrations if such administrations do not

reject them with notice to be served on the assignor and assignee within 45 days of notice of assignment. In the contract entered into or in a concurrent separate agreement, public administrations may accept in advance the assignment by the performing party of all or part of the receivables that have yet to accrue. In any event, the entity that has been notified of the assignment may raise all objections against the assignee that were available to the assignor under the contract governing works, services, the supply of goods or design entered into with the latter."

The new statute does not substantially modify the rules previously set out in Article 117 of the repealed Contracting Code (Legislative Decree no. 163/2006).

### OTHER INFORMATION

### Report on governance and ownership

Pursuant to section 123-bis, paragraph 3 of Legislative Decree no. 58 dated 24 February 1998, a "Report on governance and ownership" has been drawn up; the document - published jointly with the draft Financial Statements for the FY ended 31 December 2016 - is available in the Governance Section of the Bank website (www.bancasistema.it).

### **Remuneration Report**

Pursuant to section 84-quater, paragraph 1 of

Legislative Decree no. 58 dated 24 February 1998, a "Remuneration Report" has been drawn up; the document - published jointly with the draft Financial Statements for the FY ended 31 December 2016 - is available in the Governance Section of the Bank website (www.bancasistema.it).

### **Research and Development Activities**

No research and development activity was carried out in 2016.

### TRANSACTIONS WITH RELATED PARTIES

Transactions with related and associated parties, including the relevant authorisation and disclosure procedures, are governed by the "Procedure governing transactions with associated parties" approved by the Board of Directors and published on the website of Banca Sistema S.p.A..

Transactions between the Group companies and related parties or connected parties were carried out in the interests of the Bank, including within the scope of ordinary operations; these transactions were carried out in accordance with market conditions and, in any event,

based on mutual financial advantage and in compliance with all procedures.

With respect to transactions with parties who exercise management and control functions in accordance with article 136 of the Consolidated Law on Banking, they are included in the Executive Committee resolution, specifically authorised by the Board of Directors and with the approval of the Statutory Auditors, subject to compliance with the obligations provided under the Italian Civil Code with respect to matters relating to the conflict of interest of directors.

## ATYPICAL OR UNUSUAL TRANSACTIONS

During 2016, the Bank did not carry out atypical or unusual transactions, as defined in Consob Communication 6064293 dated 28 July 2006.

### SIGNIFICANT EVENTS AFTER THE END OF THE PERIOD

During the month of January, the inspection initiated by the Bank of Italy in October 2016 was concluded. The outcome of the inspection is expected during the first or second quarter of 2017.

The migration and integration connected to the merger by

incorporation of Beta Stepstone into Banca Sistema were completed with legal and tax effect beginning on 1 January 2017.

There were no additional significant events after the end of the period to be mentioned.

### BUSINESS OUTLOOK AND MAIN RISKS AND UNCERTAINTIES

The 2016 financial year ended with continuing growth in volumes and revenues in the factoring sector and in terms of salary-backed loans (CQS).

Particularly in factoring, the commercial agreements entered into in 2015 have contributed to the Group's growth and product and customer diversification process, much like the way the Beta acquisition will provide an increased ability to manage Collection/Servicing of loans

in legal action to a Group level.

The objective for the following year is to consolidate growth in the core factoring business and to take advantage of additional growth opportunities in salary-backed loans (CQS). The reduced focus on guaranteed loans to SMEs will be compensated by new product lines and the evaluation of strategic and complementary acquisitions.

### PROPOSED DISTRIBUTION OF PROFITS FOR THE PERIOD

Dear Shareholders,

We submit the financial statements for the period ended 31 December 2016, showing a profit of  $\in$  24,481,013.26 for your approval.

We recommend the following distribution of profits:

a dividend of € 6,111,999.95;

 the remainder of € 18,369,013.31 to be carried forward.

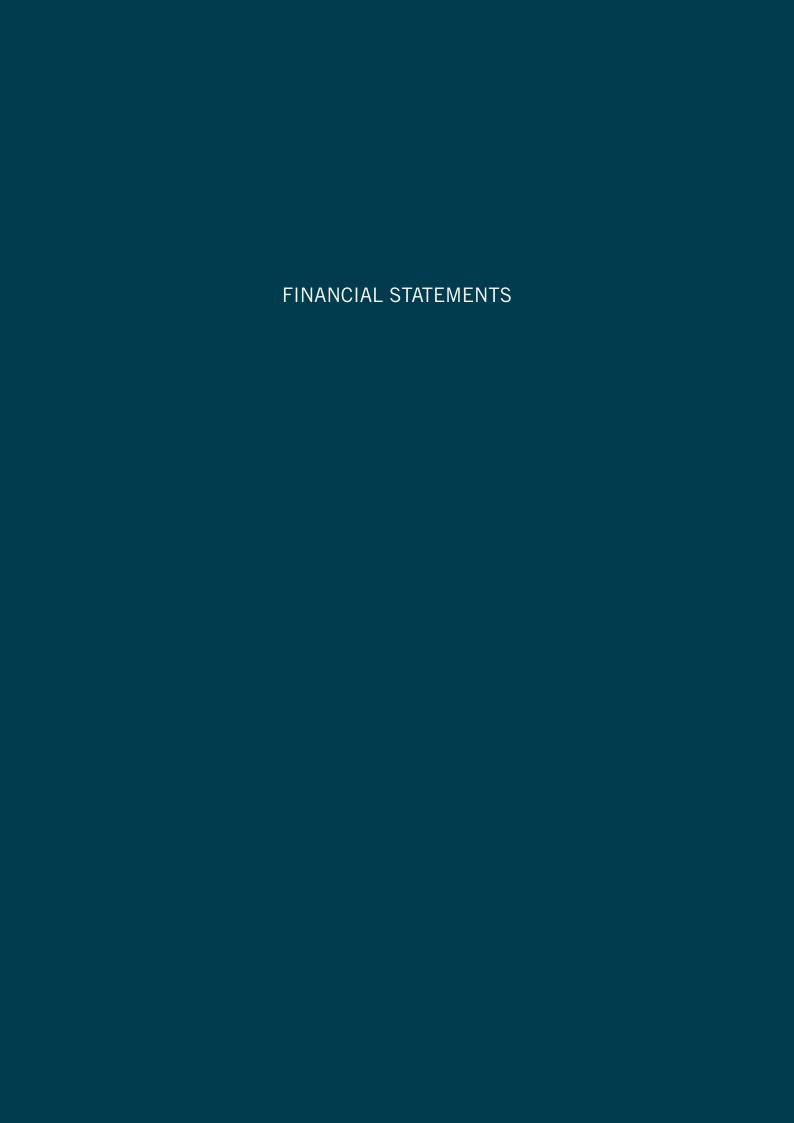

A provision to the Legal Reserve was not made since the limits set out in Article 2430 of the Italian Civil Code were reached.

Milan, 8 March 2017

On behalf of the Board of Directors

The Chairman Luitgard Spögler

The CEO Gianluca Garbi
