PRESS RELEASE

BANCA SISTEMA OFFERS “MYBANK”, INNOVATIVE E-PAYMENT SOLUTION

Milano, 5th March 2014

Starting April 7th 2014, Banca Sistema will offer its customers the service “MyBank”, a solution that makes it easier and safer to buy over the Internet at a pan-European level.

Developed by Eba Clearing, MyBank is an innovative service for online payments, avoiding customers the use of credit or pre-paid cards and having to input sensitive data into websites.

Thanks to this new tool, customers of Banca Sistema who are interested in online shopping can now use MyBank amongst the payment options made available by the chosen website. Once they have selected Banca Sistema in the list of available banks, customers are automatically re-directed to their Internet Banking home page. From there, by entering their personal login details, the payment is managed through the Secure Call service, and the transaction is made in real time and with absolute security. Technically, the transaction is an irrevocable SEPA bank transfer charged directly to the chosen personal current account.

It is a service with high security and control over the payment tools, with 24/7 availability.
By introducing MyBank for its customers, Banca Sistema further increases the range of innovative products and services characterizing its offer.

Banca Sistema
Headquartered in Milan, with offices in Rome and London, Banca Sistema specialises in financing and managing trade receivables owed by the Italian Public Administrations (PA's).
One of the primary objective of Banca Sistema is to support corporate entities in their business dealings with the PA's, acting as a bridge between the Public and Private sectors.
Banca Sistema understands the needs of corporate clients and strives to meet customers’ goals whilst also being cognizant of the processes and issues that face the PA's.
